

Brooksfield Metering and Vending Proposal

Energy Efficient.
Connected. Secure.

brooksfieldtechnologieslimited

Brooksfield's Smart Meter Vending System is an all-inclusive solution that handles

Management of customers and meters

- Customers
- Meters
- Records

Generation of STS tokens for electricity, gas, water

- STS certified token generation engine

Seamless collection of payments across multiple channels

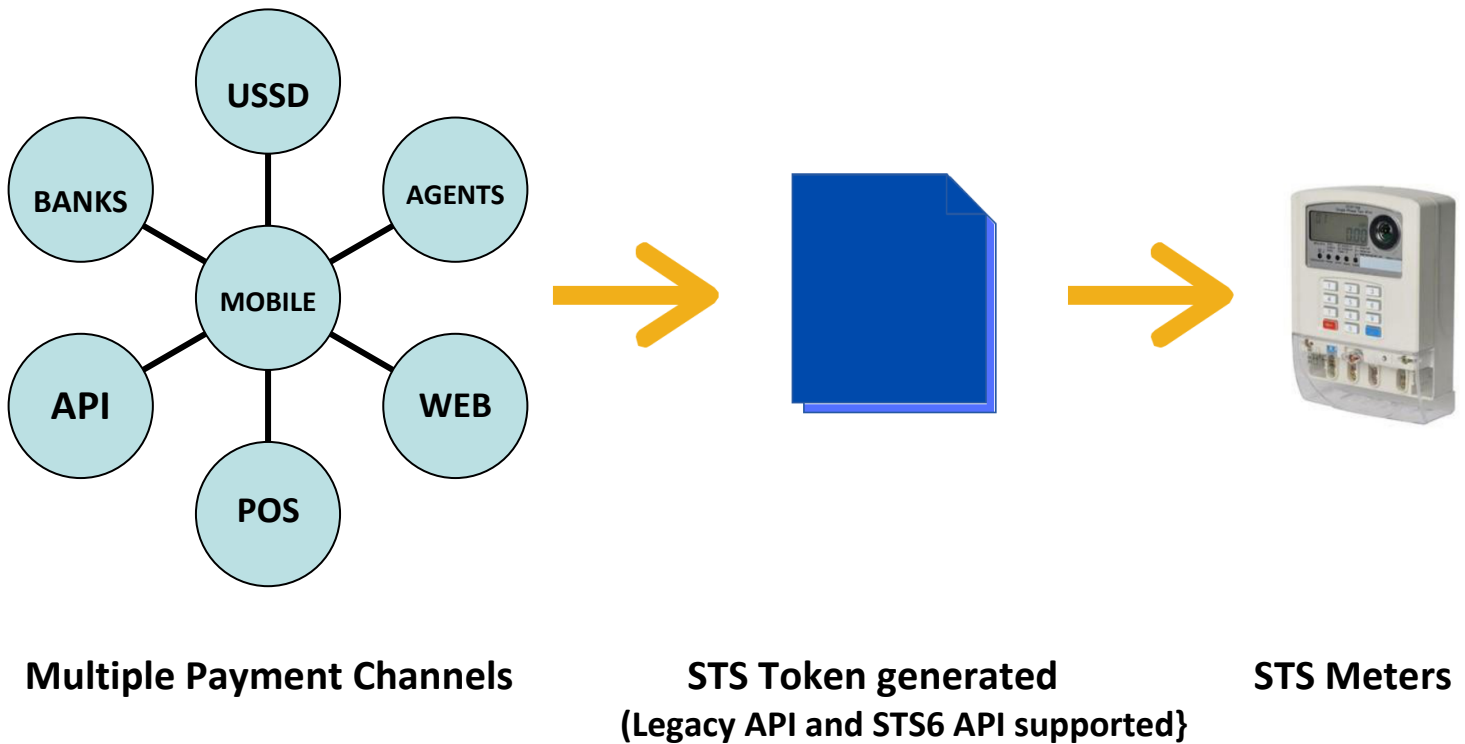

- Payment collections e.g. API, banks, agents, USSD
- Gateway access (API)

Spooling of financial records

- Secure, scalable, distributed database system

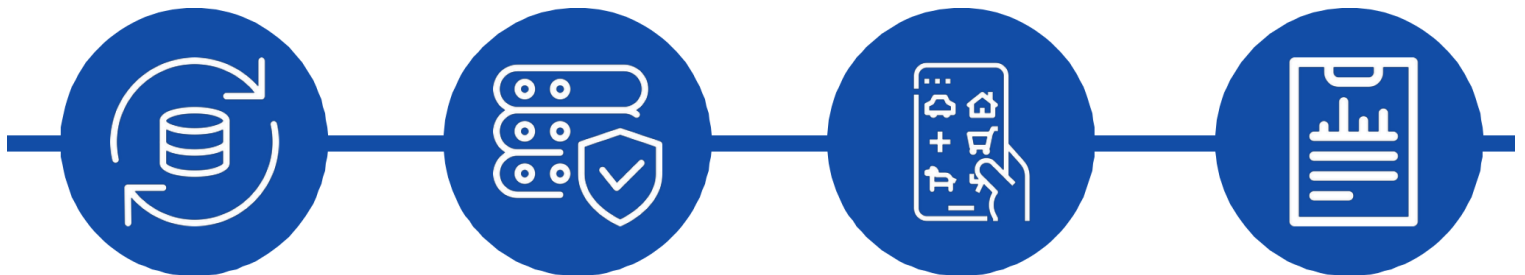

How It Works Consumers

How It Works

Estate Management

The Estate Management is profiled into the Vending System

Customer and meter data are securely stored in the system

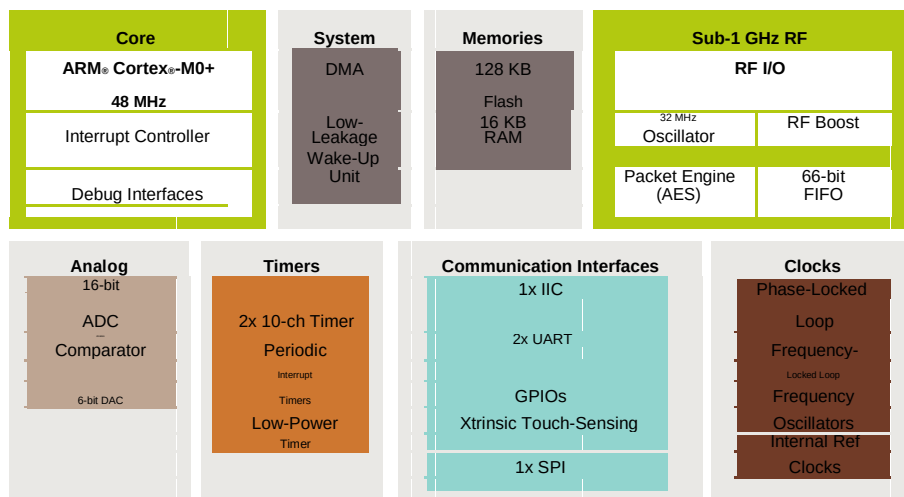

Consumers can make payments via several merchant channels

Transaction records can be spooled anytime

Financial Reporting

- Estate Administrator can view all transactions on the dashboard.
- They can spool data by time, customer name, meter number, date/time, transaction reference, etc.
- This tool would be very important for accountants and financial analysts

Key Features

Meter Management

**Allows estates to control and manage meters.
Meters can be installed, blocked, or suspended, etc.**

Tariff Management

**Allows estates to design tariffs to suit their
requirements with multiple tariff rates**

Debt Management

**Allows estates to prevent bad debts.
Customers can easily pay their debts using the preferred
debt repayment plan**

24/7 Support

We provide 24/7 support system for customers

About Brookfields

A leading Electricity EPC Contractor to the electricity distribution companies and other Nigerian utilities on transmission and distribution of projects. Brookfields is chiefly known on the continent as a market leader and innovator in metering. Always on the forefront of the latest in Metering Technology, Brookfields manufactures and supplies a variety of meters ranging from Maximum Demand, Whole Current, Pre-Paid Meters, Automatic Meter Reading System (AMR) as well as latest in Metering technology, Automatic Meter Infrastructure (AMI).

Meter and Customer Management

Allows utilities to control and manage meters and customers. Meters can be installed, blocked, or suspended, etc.

Tariff Management

Configure the tariff charges for each customer in Naira per kWh.

Debt Management

Easily transfer debt to the meter on the vending system so that your customers can settle them accordingly
